## What can I expect from my retirement development?

Many of our developments include:

- A communal lounge for socialising and relaxing
- Maintained and landscaped gardens
- Door entry systems for security and peace of mind
- 24-hour Careline – emergency alarm system in each apartment
- Lifts to all floors
- An on-site manager to take care of the day to day running of the building
- Guest suites for friends and family.

## Rent your home for as long as you like

We offer affordable, age-exclusive retirement rental properties on assured tenancies, which give you the same security of tenure as home ownership and reassurance and peace of mind.

With an assured tenancy you have peace of mind and security knowing that you can stay as long as you like and won't have to move out unless you want to.

# The benefits of renting in retirement

Renting has become an increasingly popular lifestyle choice in recent years, but for some it can be unfamiliar especially if you have always owned your own home.

Here are the some of the many benefits you can expect when renting with My Future Living.

**Peace of mind** – with an assured tenancy you can stay in your home for as long as you like. Provided you keep to the terms of the agreement, this tenancy offers protection from eviction.

**Flexibility and freedom** – renting offers you freedom. You can choose to live in your dream location, and when your tenancy ends, you have the flexibility to move elsewhere if you want to without the additional obligation and costs of selling your home.

**No unexpected costs** – the landlord is responsible for maintaining the property and any emergency repairs which means as a tenant, you won't need to worry about any additional unexpected costs outside of your monthly rent.

**Release equity from your existing home** – if you currently own a home then selling might help you to release equity in your home.

**More financial security** – the re-sale prices for new retirement properties can be less than the purchase price, but with renting there are obviously no such risks. Also, your family will not be left with a retirement property to manage or sell.

As a tenant you are responsible for utility (electric and gas) bills, water (where applicable), telephone and TV/ internet subscriptions, council tax, television licence fees and home contents insurance.
